

# Amjad Al Kharusi

Multimedia UI/UX

## ABOUT

Skilled in web design and management, I combine a deep understanding of technology with a passion for optimal design. My focus on enhancing user experience and customer retention drives me to consistently deliver engaging and responsive websites.

## EXPERIENCE

While Working at 'The Post', Ohio University's student newspaper, I was entrusted with the critical responsibility of managing web content. My role was not limited to just uploading articles, photographs, and videos, but extended to editing and enhancing the HTML and CSS of the site. I ensured optimal layout, formatting, and responsive design, contributing to a seamless user experience across multiple devices. This hands-on experience honed my web development skills, particularly in HTML and CSS, and gave me a deeper understanding of how to maintain and improve website performance and aesthetics.

Computer Repair and Maintenance: Freelance experience fixing and building computers for both personal and business clients. Proficient in diagnosing and resolving hardware and software issues, as well as configuring and optimizing systems for maximum performance.

Media Manager for the Omani Student Association at Ohio University: Managed the creation and distribution of all digital media for the association, including creating graphics, videos, and other promotional materials. Coordinated with other members of the team to plan and execute events and initiatives, and worked to build a strong online presence for the organization.
